

ID electric cables

Flexible cable for immersion in hydrocarbons in compliance with Par. 6.4 of EN 13617-1 standard.

Flame resistance in compliance with IEC 60332-1-2.

Working temperature in immersion: min -20 °C – max +80 °C.

Working voltage: 600/1000 Vac.

External cable diameter: max 10,5 mm.

Maximum immersion depth: 20 m.

Code	Description	Weight kg/m
001.07.001.0009	<i>ID 4G1,5 round cable for single-phase motor</i>	0,16
001.07.001.0010	<i>ID 4G1,5 round cable for three-phase motor</i>	0,16
